

MASTERPIECE

MASTERS IN FULL STRENGTH LEATHER

BACK TO THE ROOTS

With more than 20 years of experience, passion and love for the most beautiful and best leather, we are proud to introduce a world first design collection, which is upholstered with extraordinary natural full strength leather.

The leather/ hides used for the Masterpiece collection find their origin mostly from European Bulls. These are supplemented by Buffalos out of the Bush of South Africa and Asian water buffalos.

MASTERPIECE

masters in full strength leather

Each leather has its own unique structure, drawn by the nature. It is processed in its full strength given by nature, is not corrected and thus, this leather retains its original and natural appearance in all its beauty. The manuscript of nature, the life of the bull, buffalo or water buffalo with its own characteristics remains fully visible.

The skins are tanned with natural minerals and raw materials. Only the best skins are used. They are hand-picked, carefully selected and controlled. We personally have developed this leather collection in close collaboration with some exclusively working leather tanneries in the world. Our team has a very high level of competence, so the manufactory can be guaranteed with a lot care and attention to detail.

The large scale processing of skins, without unnecessary seams, the naturalness in touch and appearance of the leather makes each design a...

MASTERPIECE.
